Completed - Assessment - PSM I

You are finished taking the following assessment:

Name PSM I
Description Professional Scrum Master I Assessment

Congratulations! You have demonstrated a fundamental knowledge of the Scrum roles, events, artifacts, and the rules of the Scrum framework that bind them together as described in the Scrum Guide. This qualifies for certification as a Professional Scrum Master I.

Take a look below for your score breakdown by subject area. This will enable you to see where to focus any improvement efforts. If you have not already done so, we recommend you review our PSM Subject Areas.

You will receive an email of your assessment results via email. Your score, a downloadable **PSM I certificate and badge will be added into your Scrum.org account profile** within the next hour. You can use these to represent your status and understanding of Scrum. We will also be adding your name to our list of Professional Scrum Master I certification holders.

Scrum On!

Score **PASS**
80 points scored (or 100.0%) out of 80 maximum points
(a score of 85.0% or greater is needed to pass this test)

Summary of Results By Section

The questions in this test were organized by section. This table details a summary of your scores by section.

Section/Subject Area	Percentage Scored
Scrum Framework - Rules and roles of Scrum per the Scrum Guide.	100.0%
Scrum Theory and Principles - Good understanding of Scrum theory, how it is founded on empirical theory, and the principles and values of Scrum.	100.0%
Cross-functional, self-organizing Teams - Scrum Teams are different from traditional development groups. The paradigm and nature of a cross-functional and self-organizing team promotes flexibility, creativity, and productivity. They choose how to best do their work and have all competencies needed to accomplish it without depending on others outside of the team.	100.0%
Coaching & Facilitation - Overall behavior of Scrum Masters are very different from project managers or team leaders in traditional environments. Scrum Masters are servant-leaders who coach and facilitate teams and organizations in understanding and applying Scrum. Best techniques help teams and organizations discover what works best for them.	100.0%

PASS **80 points scored (or 100.0%) out of 80 maximum points**

1) Which of the following are true about the Product Owner role?

☐ Bookmark this question

Choose 3 answers.

A) The Product Owner is accountable for ordering the Product Backlog.

B) The Product Owner can be influenced by a committee.

C) The Product Owner role can be played by a committee or a team of people.

D) Multiple people can share the Product Owner role on a Scrum Team.

E) The Product Owner is one person.

2) **Every Scrum Team must have a Product Owner and Scrum Master.**

Bookmark this question

Choose one answer.

A) False. A Scrum Master is only required when asked for by the Development Team.

B) True. Each must be 100% dedicated to the Scrum Team.

C) True. Outcomes are affected by their participation and availability.

D) False. A Product Owner can be replaced by a business analyst in the Development Team.

3) **What is a Development Team responsible for?**

Bookmark this question

Choose 2 answers.

A) Organizing the work required to meet the Sprint Goal

B) Resolving internal team conflicts

C) Selecting the Product Owner

D) Reporting productivity

4) **How do you know that a Development Team is cross-functional?**

Bookmark this question

Choose one answer.

A) There are no conflicts within the Development Team.

B) Every member of the Development Team is able to perform every task.

C) Development Team has all the skills to create a releasable increment by the end of every Sprint.

D) A few of the Development Team members pair program and do Test Driven Development.

5) **When multiple teams work together on the same product, each team should maintain a separate Product Backlog.**

Bookmark this question

Choose one answer.

A) True

B) False

6) **What enhances the transparency of an Increment?**

Bookmark this question

Choose one answer.

A) Updating Sprint tasks properly in the electronic tracking tool

B) Keeping track of and estimating all undone work to be completed in a separate Sprint

C) Doing all work needed to meet the definition of "Done"

D) Reporting Sprint progress to the stakeholders daily

7) **A properly functioning Scrum Team will have at least one Release Sprint and may well have several.**

Bookmark this question

Choose one answer.

A) True

B) False

8) **The CEO asks the Development Team to add a "very important" item to a Sprint that is in progress. What should the Development Team do?**

Bookmark this question

Choose one answer.

A) Add the item to the current Sprint without any adjustments.

B) Inform the Product Owner so he/she can work with the CEO.

C) Add the item to the next Sprint.

D) Add the item to the current Sprint and drop an item of equal size.

9) **Who is responsible for engaging the stakeholders?**

Bookmark this question

Choose one answer.

A) The Development Team

B) The team manager

C) The project manager

D) The business analyst

E) The Product Owner

11) **If burndown charts are used to visualize progress, what do they track?**

Bookmark this question

Choose one answer.

A) Accumulated business value delivered to the customer

B) Work remaining across time

C) Accumulated cost

D) Individual worker productivity

12) **Who determines how work is performed during the Sprint?**

Bookmark this question

Choose one answer.

A) Architects

B) The Development Team

C) Subject matter experts

D) The Scrum Master

E) Development Team managers

13) **Which output from Sprint Planning provides the Development Team with a target and overarching direction for the Sprint?**

Bookmark this question

Choose one answer.

A) Sprint Review minutes

B) The Sprint Backlog

C) The release plan

D) The Sprint Goal

14) **Which does a self-organizing Development Team choose?**

Bookmark this question

Choose one answer.

A) How to best accomplish its work

B) Sprint length

C) Stakeholders for the Sprint Review

D) Product Backlog ordering

E) When to release, based on its progress

15) When do Development Team members take ownership of a Sprint Backlog item?

Bookmark this question

Choose one answer.

A) Whenever a team member can accommodate more work.

B) At the Sprint planning meeting.

C) Never. All Sprint Backlog Items are "owned" by the entire Development Team, even though each one may be done by an individual Development Team member.

D) During the Daily Scrum.

16) Which three questions are answered by all Development Team members at the Daily Scrum?

Bookmark this question

Choose 3 answers.

A) How is the Sprint proceeding?

B) What work am I going to do today to help the team achieve its goal?

C) Why were you late?

D) What impediments are in my way or in the way of the team?

E) How many hours did I spend on the project yesterday?

F) What work did I do yesterday to help the team achieve its goal?

17) The length of a Sprint should be:

Bookmark this question

Choose one answer.

A) Short enough to be able to synchronize the development work with other business events.

B) No more than one calendar month.

C) Short enough to keep the business risk acceptable to the Product Owner.

D) All of these answers are correct.

18) When can a Development Team cancel a Sprint?

Bookmark this question

Choose one answer.

A) When functional expectations are not well understood.

B) It can't. Only Product Owners can cancel Sprints.

C) When the Product Owner is absent too often.

D) When the selected Product Backlog items for the Sprint become unachievable.

E) When a technical dependency cannot be resolved.

19) Which of the following might the Scrum Team discuss during a Sprint Retrospective?

Bookmark this question

Choose one answer.

A) Methods of communication.

B) The way the Scrum Team does Sprint Planning.

C) Its Definition of "done."

D) Skills needed to improve the Development Team's ability to deliver.

E) All of the above.

20) Which statement best describes a Product Owner's responsibility?

Bookmark this question

Choose one answer.

A) Keeping stakeholders at bay.

B) Directing the Development Team.

C) Managing the project and ensuring that the work meets the commitments to the stakeholders.

D) Optimizing the value of the work the Development Team does.

21) Scrum is a methodology that tells in detail how to build software incrementally.

Bookmark this question

Choose one answer.

A) True

B) False

22) During a Sprint Retrospective, for what is the Scrum Master responsible?

Bookmark this question

Choose one answer.

A) Summarizing and reporting the discussions to management.

B) Acting as a scribe to capture the Development Team's answers.

C) Participating as a Scrum team member and facilitating as requested or needed.

D) Prioritizing the resulting action items.

23) What is the tactic a Scrum Master should use to divide a group of 100 people into multiple Development Teams?

Bookmark this question

A) Ask the developers to divide themselves into teams.

B) Ask the Product Owner to assign the people to teams.

C) Create teams based on their skills across multiple layers (such as database, UI, etc.).

24) Which answer best describes the topics covered in Sprint Planning?

Bookmark this question

Choose one answer.

A) Who is on the team and what team member roles will be.

B) What can be done and how to do it.

C) What went wrong in the last Sprint and what to do differently this Sprint.

D) What to do and who will do it.

E) How conditions have changed and how the Product Backlog should evolve.

25) Who starts the Daily Scrum?

Bookmark this question

Choose 1 answer.

A) Whoever the Development Team decides should start.

B) The Scrum Master. This ensures that the Development Team has the meeting and stays within the time-box.

C) The person coming in last. This encourages people to be on time and helps to stay within the time-box.

D) The person who last broke the build.

E) The person who has the token.

26) **When is implementation of a Product Backlog item considered complete?**

Bookmark this question

Choose one answer.

A) When the item has no work remaining in order to be potentially released

B) At the end of the Sprint

C) When QA reports that the item passes all acceptance criteria

D) When all work in the Sprint Backlog related to the item is finished

27) **If burndown charts are used to visualize progress, what does a trend line through a release burndown chart indicate?**

Bookmark this question

Choose one answer.

A) When the project will be over if the Product Owner removes work that is equal in effort to any new work that is added.

B) The evolution of the cost spent on the project.

C) When the work remaining will likely be completed if nothing changes on the Product Backlog or the Development Team.

D) When all work will be completed so the Scrum Team can be released for other work.

28) **As the Development Team starts work during the Sprint, it realizes it has selected too much work to finish in the Sprint. What should it do?**

Bookmark this question

Choose one answer.

A) Find another Scrum Team to give the excess work to.

B) Inform the Product Owner at the Sprint Review, but prior to the demonstration.

C) As soon as possible in the Sprint, work with the Product Owner to remove some work or Product Backlog items.

D) Reduce the definition of "Done" and get all of the Product Backlog items "done" by the new definition.

29) **A Development Team selects a set of Product Backlog items for a Sprint Backlog with the intent to get the selected items "Done" by the end of the Sprint. Which three phrases best describe the purpose of a definition of "Done"?**

Bookmark this question

Choose 3 answers.

A) It tracks the percent completeness of a Product Backlog item.

B) It defines what it takes for an Increment to be ready for release.

C) It creates transparency over the work inspected at the Sprint Review.

D) It controls whether the developers have performed their tasks.

E) It guides the Development Team in creating a forecast at the Sprint Planning.

F) It provides a template for elements that need to be included in the technical documentation.

30) **What is the main reason for the Scrum Master to be at the Daily Scrum?**

Bookmark this question

Choose one answer.

A) To gather status and progress information to report to management.

B) To write down any changes to the Sprint Backlog, including adding new items, and tracking progress on the burn-down.

C) To make sure every team member answers the three questions.

D) He or she does not have to be there; he or she only has to ensure the Development Team has a Daily Scrum.

31) **What are two ways that architecture and infrastructure are handled in Scrum?**

Bookmark this question

Choose 2 answers.

A) They are added to the Product Backlog and addressed in early Sprints, while always requiring at least some business functionality, no matter how small.

B) They are built by a separate team through the creation of an architectural runway.

C) They are implemented along with functional development of the product.

D) They are discussed, determined, and documented before the actual feature development Sprints.

32) **What activities would a Product Owner typically undertake in the phase between the end of the current Sprint and the start of the next Sprint?**

Bookmark this question

Choose one answer.

A) Work with the QA departments on the Increment of the current Sprint.

B) There are no such activities. The next Sprint starts immediately after the current Sprint.

C) Update the project plan with stakeholders.

D) Refine the Product Backlog.

33) **Who can abnormally terminate a Sprint?**

Bookmark this question

Choose one answer.

A) The Development Team or its members

B) The Scrum Master

C) The Stakeholders

D) The Product Owner

34) **When might a Sprint be abnormally terminated?**

Bookmark this question

Choose one answer.

A) When the Development Team feels that the work is too hard.

B) When it becomes clear that not everything will be finished by the end of the Sprint.

C) When the sales department has an important new opportunity.

D) When the Sprint Goal becomes obsolete.

35) **Which two activities will a Product Owner engage in during a Sprint?**

Bookmark this question

Choose 2 answers.

A) Update the Sprint burndown chart.

B) Run the Daily Scrum.

C) Answer questions from the Development Team about items in the current Sprint.

D) Prioritize the Development Team's work on the Sprint Backlog.

E) Work with the stakeholders.

36) **During a Sprint Retrospective, the Development Team proposes moving the Daily Scrum to only occur on Tuesdays and Thursdays. Which two are the most appropriate responses for the Scrum Master?**

Bookmark this question

Choose 2 answers.

A) Acknowledge and support the self-organizing team's decision.

B) Have the developers vote.

C) Coach the team on why the Daily Scrum is important as an opportunity to update the plan.

D) Consider the request and decide on which days the Daily Scrum should occur.

E) Learn why the Development Team wants this and work with them to improve the outcome of the Daily Scrum.

37) **What does it mean to say that an event has a time-box?**

Bookmark this question

Choose one answer.

A) The event must take at least a minimum amount of time.

B) The event can take no more than a maximum amount of time.

C) The event must happen by a given time.

D) The event must happen at a set time.

38) Every Development Team should have:

Bookmark this question

Choose one answer.

A) At least one representative from each major software engineering discipline (like QA, Dev, UX).

B) One Lead Developer and no more than 8 other members.

C) The competencies and skills needed to deliver a Done Increment in a Sprint.

39) The Scrum Master observes the Product Owner struggling with ordering the Product Backlog. What is an appropriate action for the Scrum Master to take?

Bookmark this question

Choose one answer.

A) Offer the Product Owner help in understanding that the goal of ordering the Product Backlog is to maximize value.

B) Suggest that the Development Team does the ordering to be sure that it is a feasible ordering of work.

C) Encourage the Product Owner to work with the Development Team to see which items technically are fastest to implement.

D) Suggest the Product Owner extend the Sprint, so he can have more time to order the Product Backlog.

E) Present the Product Owner with an ordered Product Backlog to use.

40) Why does a Development Team need a Sprint Goal?

Bookmark this question

Choose one answer.

A) A Sprint Goal ensures that all of the Product Backlog items selected for the Sprint are implemented.

B) A Sprint Goal only gives purpose to Sprint 0.

C) The Development Team is more focused with a common yet specific goal.

D) Sprint Goals are not valuable. Everything is known from the Product Backlog.

41) Who must attend the Daily Scrum?

Bookmark this question

Choose one answer.

A) The Development Team and Product Owner

B) The Scrum Team

C) The Development Team

D) The Scrum Master and Product Owner

E) The Development Team and Scrum Master

42) **Which three of the following are feedback loops in Scrum?**

Bookmark this question

Choose 3 answers.

A) Release Planning

B) Sprint Review

C) Daily Scrum

D) Sprint Retrospective

E) Refinement Meeting

43) **A new developer is having continuing conflicts with existing Development Team members and creating a hostile environment. If necessary, who is responsible for removing the team member?**

Bookmark this question

Choose one answer.

A) The Development Team is responsible, and may need help from the Scrum Master.

B) The Scrum Master is responsible, because he/she removes Impediments.

C) The Product Owner is responsible, because he/she controls the return on investment (ROI).

D) The hiring manager is responsible, because he/she hired the developer.

44) **What three factors are best considered when establishing the Sprint length?**

Bookmark this question

Choose 3 answers.

A) The risk of being disconnected from the stakeholders

B) Sprints must have the same length throughout an organization

C) The level of uncertainty over the technology to be used

D) The frequency at which team formation can be changed

E) The ability to go to market with a product release

45) **Which statement best describes Scrum?**

Bookmark this question

Choose one answer.

A) A defined and predictive process that conforms to the principles of Scientific Management.

B) A cookbook that defines best practices for software development.

C) A complete methodology that defines how to develop software.

D) A framework within which complex products in complex environments are developed.

46) **Which Scrum Value is affected by a lack of trust in the Scrum Team?**

Bookmark this question

Choose one answer.

A) Courage
B) Respect
C) Focus
D) Commitment
E) Openness
F) All of the above

47) **When a Development Team is having trouble delivering a working Increment because they don't understand a functional requirement, what should they do?**

Bookmark this question

Choose one answer.

A) Partially complete the functionality, and discuss the remaining work at the Sprint Review.
B) Defer the work to a more appropriate Sprint.
C) Collaborate with the Product Owner to determine what is possible and acceptable.
D) Add a specialist to the Development Team.

48) **Choose two responsibilities of a self-organizing Development Team.**

Bookmark this question

Choose 2 answers.

A) Report daily progress to stakeholders.
B) Pull Product Backlog items for the Sprint.
C) Do the work planned in the Sprint Backlog.
D) Increase velocity.
E) Reorder the Product Backlog.

49) **What are the two primary ways a Scrum Master keeps a Development Team working at its highest level of productivity?**

Bookmark this question

Choose 2 answers.

A) By keeping high value features high in the Product Backlog
B) By removing impediments that hinder the Development Team
C) By ensuring the meetings start and end at the proper time
D) By facilitating Development Team decisions

50) The Product Backlog is ordered by:

Bookmark this question

Choose one answer.

A) Importance, where the most important items are at the top at all times.

B) Risk, where safer items are at the top, and riskier items are at the bottom.

C) Size, where small items are at the top and large items are at the bottom.

D) Items are randomly arranged.

51) Who determines when it is appropriate to update the Sprint Backlog during a Sprint?

Bookmark this question

Choose one answer.

A) The Scrum Team

B) The Project Manager

C) The Product Owner

D) The Development Team

52) A Scrum Master is introducing Scrum to a new Development Team. The Development Team has decided that a retrospective is unnecessary. What action should the Scrum Master take?

Bookmark this question

Choose one answer.

A) Begin facilitating productive and useful retrospectives.

B) Call a meeting between the Development Team and senior management.

C) Consult with the Product Owner to see how he/she feels about the situation.

D) Comply with the decision of the self-organizing team.

53) What does it mean for a Development Team to be cross-functional?

Bookmark this question

Choose one answer.

A) The Development Team is a virtual team drawing from separate teams of business analysts, architects, developers and testers.

B) The Development Team includes not only developers but also business analysts, architects, developers and testers.

C) The Development Team includes cross-skilled individuals who are able to contribute to do what is necessary to deliver an increment of software.

D) Developers on the Development Team work closely with business analysts, architects, developers and testers who are not on the team.

54) **During a Sprint Retrospective, for what is the Product Owner responsible?**

Bookmark this question

Choose one answer.

A) The Product Owner should not take part in Sprint Retrospectives.

B) Participating as a Scrum Team member.

C) Summarizing and reporting the discussions to the stakeholders that he/she represents in the Scrum Team.

D) Capturing requirements for the Product Backlog.

55) **The Product Owner is not collaborating with the Development Team during the Sprint. What are two valuable actions for a Scrum Master to take?**

Bookmark this question

Choose 2 answers.

A) Stop the Sprint, send the Product Owner to a course and restart.

B) Bring up the problem in the Sprint Retrospective.

C) Inform the Product Owner's functional manager.

D) Coach the Product Owner in the values of Scrum and incremental delivery.

E) Nominate a proxy Product Owner.

56) **A Scrum Master is working with a Development Team that has members in different physical locations. The Development Team meets in a variety of meeting rooms and has much to do logistically (for example, set up conference calls) before the Daily Scrum. What action should the Scrum Master take?**

Bookmark this question

Choose one answer.

A) Allow the Development Team to self-manage and determine for itself what to do.

B) Inform management and ask them to solve it.

C) Set up the meeting and tell the Development Team that is how it will be done.

D) Ask the Development Team members to alternate who is responsible for meeting setup.

57) **Who creates a Product Backlog item's estimate?**

Bookmark this question

Choose one answer.

A) The Development Team, alone.

B) The Scrum Master.

C) The most senior people in the organization, including architects and subject matter experts.

D) The Product Owner with input from the Development Team.

E) The Development Team after clarifying requirements with the Product Owner.

58) **When a Development Team determines that it will not be able to finish the complete forecast, who has to be present when reviewing and adjusting the Sprint work selected?**

Bookmark this question

Choose one answer.

A) The Product Owner and all stakeholders

B) The Product Owner and the Development Team

C) The Scrum Master, project manager and Development Team

D) The Development Team

59) **One of the Scrum events is the Daily Scrum. What are two intended outcomes of the Daily Scrum?**

Bookmark this question

Choose 2 answers.

A) A shared understanding of the most important work to be undertaken next to achieve the best possible progress toward the Sprint goal.

B) An updated Scrum board to make Sprint progress transparent for the stakeholders.

C) An update of completed tasks and of the remaining work so the Scrum Master can plan the next day.

D) A status report for the upper management indicating what each individual has done, will be doing, and what is impeding him/her.

E) New impediments for the Scrum Master to take care of.

60) **Which statement best describes the Sprint Review?**

Bookmark this question

Choose one answer.

A) It is a demo at the end of the Sprint for everyone in the organization to check on the work done.

B) It is used to congratulate the Development Team if it did what it forecast, or to punish the Development Team if it failed to meet its forecast.

C) It is when the Scrum Team and stakeholders inspect the outcome of a Sprint and figure out what to do next.

D) It is a mechanism to control the Development Team's activities during a Sprint.

61) **Which phrase best describes a Product Owner?**

Bookmark this question

Choose one answer.

A) Value optimizer

B) Go-between between development team and customers

C) Requirements engineer

D) Team manager

62) **Of the following choices, what is the most effective way a Scrum Master can keep a Development Team working at its highest level of productivity?**

Bookmark this question

Choose one answer.

A) Facilitate Development Team decisions and remove impediments.

B) Ensure the meetings start and end at the proper time.

C) Keep high value features high in the Product Backlog.

D) Prevent changes to the backlogs once the Sprint begins.

63) **Which of the following is required by Scrum?**

Bookmark this question

Choose one answer.

A) Sprint Burndown Chart

B) Members must stand up at the Daily Scrum

C) Release Planning

D) Sprint Retrospective

E) All of the above

64) **Which outcome is expected as Scrum Teams mature?**

Bookmark this question

Choose one answer.

A) There is no need for a time-boxed Sprint, since time-boxes are only for new Scrum Teams.

B) They will improve their definition of "Done" to include more stringent criteria.

C) Sprint Reviews will no longer be needed.

D) A Scrum Master is no longer needed since they are a mature team now.

E) The Sprint Retrospectives will grow to be longer than 4 hours.

65) **Which two of the following are true about the Scrum Master role?**

Bookmark this question

Choose 2 answers.

A) The Scrum Master assigns tasks to Development Team members when they need work.

B) The Scrum Master is responsible for updating the Sprint Burndown.

C) The Scrum Master helps those outside the team interact with the Scrum Team.

D) At the Sprint Review, the Scrum Master identifies what has been "done" and what has not been "done".

E) The Scrum Master teaches the Development Team to keep the Scrum meetings to their timebox.

66) **For the purpose of transparency, when does Scrum say a new increment of working software must be available?**

Bookmark this question

Choose one answer.

A) When the Product Owner asks to create one.

B) Before the release Sprint.

C) After the acceptance testing phase.

D) At the end of every Sprint.

E) Every 3 Sprints.

67) **In accordance with Scrum theory, how should a group of 100 people be divided into multiple Development Teams?**

Bookmark this question

Choose one answer.

A) Check with the allocation department to see who has worked together before and make these the first teams.

B) It doesn't really matter because you can rotate the teams every Sprint to spread knowledge.

C) Create a matrix of skills, seniority, and level of experience to assign people to teams.

D) Understanding the product, the product vision and the rules of the Scrum framework, the group divides itself into teams.

68) **Who is on the Scrum Team?**

Bookmark this question

Choose all that apply.

A) Project Manager

B) Product Owner

C) Scrum Master

D) Development Team

E) None of the above

69) **Which of these may a Development Team deliver at the end of a Sprint?**

Bookmark this question

Choose one answer.

A) An increment of working software that is "done."

B) A single document, if that is what the Scrum Master asked for.

C) Failing unit tests, to identify acceptance tests for the next Sprint.

D) An increment of software with minor known bugs in it.

70) Who is responsible for managing the progress of work during a Sprint?

☑ Bookmark this question

Choose one answer.

A) The Product Owner

B) The Scrum Master

C) The Development Team

D) The most junior member of the Team

71) Which are properties of the Daily Scrum?

☐ Bookmark this question

Choose 2 answers.

A) Its location and time should remain constant.

B) It consists of the Scrum Master asking the Team members the three questions.

C) It is held first thing in the morning.

D) It is fifteen minutes or less in duration.

E) It is free form and designed to promote conversation.

F) It is facilitated by the team lead.

72) Why is the Daily Scrum held at the same time and same place?

☐ Bookmark this question

Choose one answer.

A) The consistency reduces complexity.

B) The place can be named.

C) The Product Owner demands it.

D) Rooms are hard to book and this lets it be booked in advance.

73) **The Daily Scrum is an event that happens every day. What would be three key concerns if the frequency were to be lowered to every two or three days?**

Bookmark this question

Choose 3 answers.

A) The Scrum Master loses the ability to update the Gantt chart properly.

B) The Sprint plan may become inaccurate.

C) Impediments are raised and resolved more slowly.

D) The Product Owner cannot accurately report progress to the stakeholders.

E) Opportunities to inspect and adapt the Sprint Backlog are lost.

F) Too much work is spent updating the Scrum board before the meeting.

74) **The Product Owner makes sure the team selects enough from the Product Backlog for a Sprint to satisfy the stakeholders.**

Bookmark this question

Choose one answer.

A) True

B) False

75) **Who is responsible for clearly expressing Product Backlog Items?**

Bookmark this question

Choose one answer.

A) The Scrum Master, or the Scrum Master may have the Development Team do it.

B) The Product Owner.

C) The Scrum Master.

D) The business analyst who represents the Product Owner in the Development Team.

76) **What is the time-box for the Sprint Review?**

Bookmark this question

Choose one answer.

A) As long as needed

B) 2 hours for a monthly Sprint

C) 1 day

D) 4 hours and longer as needed

E) 4 hours for a monthly Sprint

77) **The Product Owner must release each Increment to production.**

Bookmark this question

Choose one answer.

A) Whenever the product is free of defects.

B) Without exception.

C) When it makes sense.

D) To make sure the Development Team is done every Sprint.

78) **What is the accountability of the Product Owner during Sprint 0?**

Bookmark this question

Choose one answer.

A) Make the complete project plan to commit date, budget and scope to the stakeholders.

B) Make sure enough Product Backlog items are refined to fill the first 3 Sprints.

C) Gathering, eliciting, and analyzing the requirements that will be inserted into the Product Backlog.

D) Determine the composition of the Development Teams so they have the capacity to deliver the completed forecast.

E) There is no such thing as Sprint 0.

79) Which of the following best describes an increment of working software?

Bookmark this question

Choose one answer.

A) Additional features in a useable state that complement those delivered in previous iterations.

B) An automated test suite to verify functionality delivered in previous iterations.

C) A decomposition of all Product Backlog items into tasks for future Sprint Backlog lists.

D) A new user interface design for functionality delivered in previous iterations.

E) UML diagrams that describe how to deliver functionality in future iterations.

80) When does the second Sprint start?

Bookmark this question

Choose one answer.

A) Immediately after the first Sprint.

B) Once the architectural changes for the second Sprint have been approved by the senior architect.

C) After the Product Backlog for the second Sprint has been selected.

D) After the customer completes acceptance testing of the first Sprint.
